Loans

- When you take a loan, compounding will work against you.
- Loans with a longer tenure to reduce the EMI will translate into a higher compounding effect and you end up paying more as interest over the longer tenure.
- Interest that is due (i.e credit card) and unpaid will add up to the principal. You pay interest on interest

Debt Trap

- Debt Trap – When one is compelled to take new loans to pay off your old loans.
- A good debt is a debt taken to purchase an asset can help generate revenue for you for a long time.
- A loan taken against an asset that does not generate any revenue is known as a bad debt.
