Activity Report

The Department of Zoology recently organized inauguration of **Zoology Study Circle** and Guest Lecture on dated 08/08/2025 in college auditorium at 12 pm. As a part of **Memorandum of Understanding (MoU)** with the Zoology Department of Digambarao Bindu College. The college had invited Prof. Dr. Arvind Chavan, Head of the Zoology Department & Coordinator- Internal Quality Assurance Cell, and Young Scientist, as the guest speaker. The president of this program was headed by Principal Dr. Haridas Rathod. This initiative aimed to provide in-depth knowledge of zoology to science stream students and to keep them updated on modern developments and changing trends within the subject.

Dr. Chavan guided the students about emerging opportunities in zoology and encouraged them to pursue a bright career by acquiring the right skills, emphasizing that even students from rural backgrounds can achieve great successfully. He stated, "If the first generation commits to learning, they can reach the highest positions," and urged students to move forward with confidence. He placed special emphasis on the future of taxonomy and artificial intelligence (AI) within zoology. He explained the evolution from traditional morphology-based studies to molecular-level research and now the integration of AI. Referring to global biodiversity

In the presidential address, Principal Prof. Dr. Haridas Rathod expressed his happiness and pride over the successful event, attributing it to the collective efforts and enthusiastic participation. He stated that the purpose of the Study Circle is not just limited to learning science but also to create awareness about animal life, their relationship with the environment, and their conservation. He said, "Nature is our teacher, and we must always remember that."

The program began with an introduction by Prof. Dr. Shrinivas Pawar, Head of the Zoology Department. Prof. Dr. Maheshkumar Pentewar introduced the chief guest & Prof. Dr. Kavita Lohale, Staff Secretary and Head of the Marathi Department, conducted the proceedings and delivered the vote of thanks.

The outcomes of the program are:

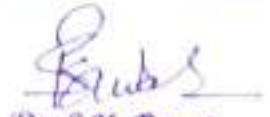

- Students were introduced to the integration of Artificial Intelligence (AI) in taxonomy, highlighting its potential to revolutionize species identification and classification.
- Understanding the shift in taxonomy from traditional methods to molecular research and now AI-driven analysis was emphasized.
- The session inspired rural students to pursue careers in zoology, showcasing how they can overcome limitations through skill development.

Students also learned about diverse career paths including:

- Zoological research, biodiversity conservation, documentation and cataloging of species.
