**7. Report:** The department of Botany of Gramin (ACS) Mahavidyalaya organized a one-day botanical excursion on 16/10/2025 to same day for B.Sc. Botany students. The excursion was planned to provide students with first-hand exposure to plant diversity and natural ecosystems, which is an essential component of botanical education.

The main objectives of the excursion were to study local flora, identify various plant species, understand their ecological significance, and collection of specimens for herbarium preparation. Total 14 students participated in the tour under the guidance of Mr. S. R. Kankute & Mr. V.B. Pawar.

During the excursion students observed a wild variety of plant species belonging to different families such as Zingiberaceae, Fabaceae, Liliaceae etc. and Several medicinal plants and economically important species were identified. Students were also introduced to basic ecological concepts like plant associations, habitat types.

The excursion provided an excellent opportunity for experiential learning. Students actively participated in plant identification, specimen collection, and field note preparation. The tour enhanced their interest in botany and strengthened their practical knowledge.

Overall, the botanical excursion was highly successful and academically beneficial. It helped bridge the gap between theoretical knowledge and practical application and fulfilled the objectives of outcome-based education.

**10. Conclusion:** Participant develop practical skill in plant identification, Data collection and Scientific documentation.
