## **PREAMBLE:**

Forging partnerships and building relationships with fellow institutions, agencies and NGOs will definitely lead to an active role and subsequently to a meaningful achievement in the present globalized world. It is, in fact, the need of the hour to work in collaboration to achieve and maintain quality standards in Teaching – Learning – Evaluation, Research and Extension activities. The institutes and NGOs should join their hands to improve the standards in the field. This collaboration will also help to tackle and find solutions to particularly, the local problems and work together for the sustainable development of the area.

In view of the increasing adverse effects of the global warming and other environmental hazards on human life. The College Management has decided to take appropriate measures to create awareness among the stakeholders on Water conservation, and other environmental factors affecting human life. As the College does not have the expertise, it has decided to rope in an NGO having proven track record in the field for not only making the campus green and pollution free but also conduct awareness programme for all the stakeholders.
